**WE HAVE COMPLETED
MORE THAN**

200 projects

Toloka Corporation is an experienced and licensed General Contractor, which undertakes even the most complicated tasks.

Our company has dealt successfully with a variety of different projects and established a good name in Canada.

We have a close connection with a comprehensive list of manufacturers to meet the highest standards using the most advanced materials.

Toloka has created a precise work methodology with steps to meet the customer's needs perfectly.

Assessment allows us to get you an accurate picture of your future brand new house.

Renovation helps our clients to realize their inner wishes, study through the examples and get the most qualified construction advice.

Installation process involves licensed professionals and ultra-modern techniques.

Material selection of certified construction products facilitates your decisions.

Demolition (if needed) makes our worksite look like a blank sheet and gives your imagination as much space as it needs.

Guarantees that we provide will dispel any doubts.

**WE USE
ECO MATERIALS
IN OUR WORK**

Certificates and licences of our installers

WHMIS

WHMIS: instruct construction workers operation, safety practices, hazard assessment, and inspection requirements of aerial lifts, including boom and scissor lifts

Industrial Fall Protection

Industrial Fall Protection: each construction tool is specially engineered to meet the stringent requirements set down by regulatory authorities and prevent work accidents

First Aid

First aid with CPR level C & AED: every team member completes medical studying and gets the certification

Asbestos Worker

Asbestos Worker: special material requires special attention, so we hire only licensed workers

CSTS-09

Construction Safety Training System: a general safety awareness program for workers in the construction industry. To reduce the number of accidents and injuries, employers must ensure that all workers are trained in basic workplace safety

What does Toloka Corporation offer for subcontractors and Partners

Toloka Corporation is an effective and determined leader that takes responsibility for all of the provided works.

We quickly respond to all the unexpected issues that may occur on the construction site, making logical and deliberate decisions.

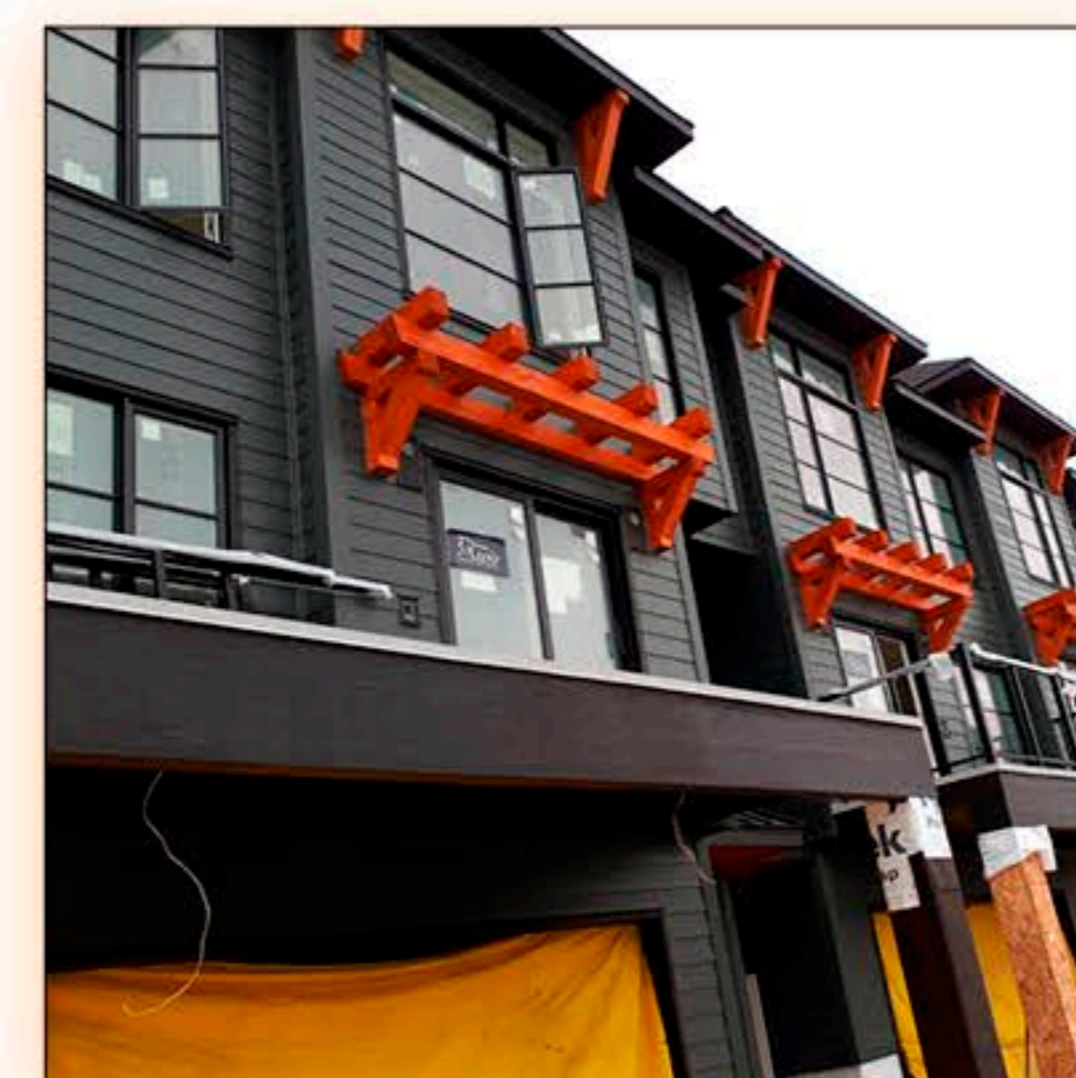

You won't have to worry about project planning, budget estimation, or communication with customers with us.

Moreover, we provide all of the needed supplies and machinery for the project, ensuring that everything will go smoothly and according to the timeline.

Toloka Corporation makes sure that every task is done efficiently, multitasking and maneuvering the work at hand.
